

AJAYI KAYODE

Digital Architect | Crafting High-Conversion Web Experiences

Where stunning aesthetics meet flawless performance to scale your business.

The Philosophy

In the modern marketplace, your website is your 24/7 storefront, your top sales closer, and the face of your brand. A generic template won't cut it.

I don't just build websites; I design digital ecosystems. By blending sleek UI/UX design with clean, lightning-fast code and strategic psychology, I transform passive visitors into hyper-engaged customers. Whether you are a startup looking to disrupt the market or an established brand ready to level up, I build the engine that drives your digital growth.

Premium Digital Solutions & Core Packages

Solution	Investment (₦)	The Experience & Deliverables
Landing Pages	150,000+	Built for Hyper-Conversion: High-impact single-page layouts engineered around a single goal: turning traffic into leads. Features aggressive CTAs, optimized forms, and mobile-first design.
Portfolio Websites	200,000+	Your Digital Legacy: Tailored for creators, executives, and freelancers. Sleek project showcases, interactive galleries, downloadable resumes, and integrated booking tools to sell your expertise.
Business Websites	450,000+	Corporate Credibility: A comprehensive multi-page digital hub (Home, About, Services, Blog). Features localized SEO setup, custom branding integration, and advanced lead-capture pipelines.
School Websites	500,000+	Institutional Excellence: Centralized portals designed for seamless navigation. Includes digital admissions forms, dynamic announcement boards, event calendars, and departmental directories.
E-Commerce Stores	800,000+	24/7 Revenue Engines: Full-scale digital storefronts built to scale. Seamless cart abandonment tracking, secure checkout flows, localized payment gateways (Paystack/Flutterwave), and user profiles.

The Blueprint: From Blueprint to Launch

My 6-stage development framework ensures your project arrives on time, stays within budget, and blows your expectations out of the water:

[1] DISCOVER —> [2] STRATEGIZE —> [3] CRAFT —> [4] REFINE —> [5] DEPLOY —> [6] SCALE

1. **Discover & Consult:** A deep-dive strategy session to align on your business goals, brand identity, and project requirements.
2. **Strategize & Wireframe:** Mapping out the blueprint of user journeys, site architectures, and design layouts so we have a crystal-clear roadmap.
3. **Craft & Develop:** Transforming concepts into clean, sustainable, responsive code optimized across all screen sizes and modern web devices.
4. **Refine & Polish:** You receive a private, interactive staging link. We collaborate side-by-side to fine-tune copy, animations, and elements.
5. **Deploy & Launch:** Rigorous cross-browser, speed, and QA testing before migrating your project safely to its live domain for a global debut.
6. **Scale & Support:** Continuous technical maintenance, structural updates, and performance monitoring to ensure your platform remains ahead of the curve.
